Self taught college grad looking for a junior software developer position.

- College courses including: Intro to C++ and intro Web Design.
- Online Courses including: JavaScript Master Class | Java Master Class | Complete SQL Bootcamp 2022
- Self Guided book on the basics of Python.

Programming Languages:

JavaScript | Java | SQL | Python | HTML | CSS | C++

Skills:

PostgreSQL | Software Troubleshooting | Data Analysis | Project Management | UNIX | Windows | Linux

Projects:

[Pig Game](#) - Javascript

- A browser game where 2 players roll a dice. After each roll of the die, the player has a choice to either pass the turn to the other player or continue to roll. If a player rolls a 1, said player loses all their points and it is the other player's turn. The first player that reaches 100 points wins the game.

[Bank](#) - Java

- A simple project that can create and store customers in a bank that is separated into branches. The application can track customer's transactions as well as their current balance.

Education:

B.A. in Sociology

Graduation Year 2018

Pennsylvania State University

Relevant Courses: Intro C++ | Intro Web Design | Intro to Information Technology

Experience:

QVC | West Chester, Pennsylvania | Global Security Operations Center (GSOC) Specialist | 08/2020-Present
